To Whom It May Concern:

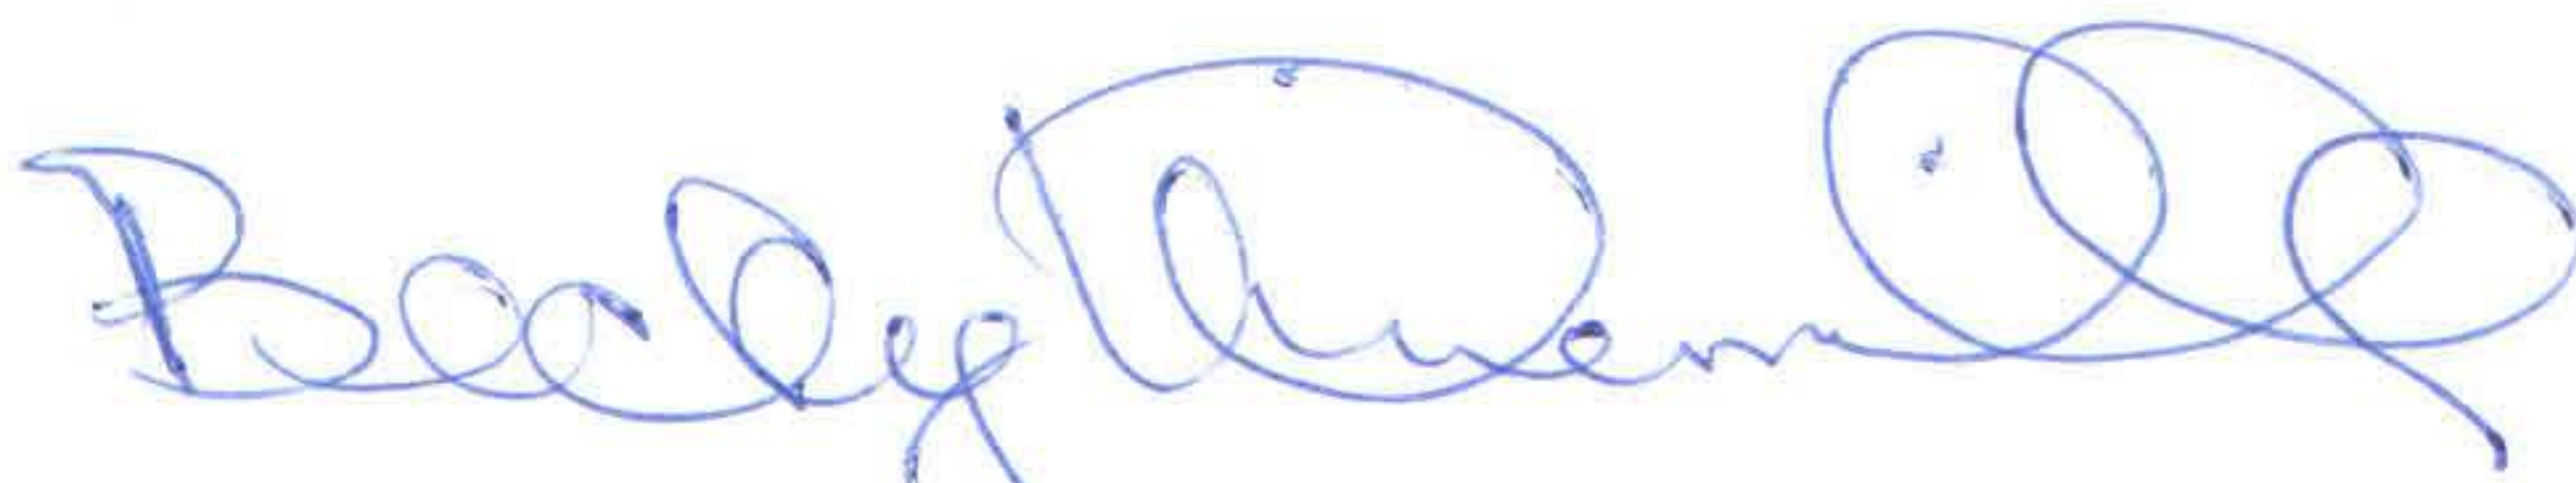

I met Jessie Wright several months ago when he became an interested buyer in the Crossville Outlet Mall.

Blue Lake Farms purchased the mall two years ago. This was a new venture for us. We generally invest in agriculture and residential projects. Jessie had a short due diligence period. In that short time (less than two months), Jessie learned more about the mall than we knew in the two years that we owned it. We have seen the changes he has made in the short time that he has owned the mall. We are very impressed with his ability to see what needs to be done and following through. I expect he will be very successful with the mall.

Jessie has done everything that he told us he would do. We are very pleased with the relationship and friendship that we have cultivated with him. I would do business with him again.

If you have any questions about my experience with Jessie, which have all been positive, please give me a call.

Sincerely,

Becky Winemiller
